Supervisor Nicholas D'Alessandro Announces Rolling Frito-Lay Sales, LP has completed East Fishkill Property Acquisition

The East Fishkill Town Board is excited to report today that Rolling Frito-Lay Sales, LP has completed its transaction to acquire the property on which it will construct a 150,000 square-foot Fulfillment Center in the Town of East Fishkill. Set to be part of the newly developed iPark 84 mixed-use area, the development is part of the Town Board's economic development plans and strategic zoning changes from the past several years, which were made to secure projects of this caliber. When the \$100 million investment is complete, the new Fulfillment Center is expected to create 80 full-time jobs at the location and will incorporate enhanced distribution technologies to serve Frito-Lay's northeast retail customers.

"This is very exciting news. East Fishkill is thrilled to have Frito-Lay build in our community. This development fits perfectly with East Fishkill's aggressive economic redevelopment plans. Over the past several years I have put forward initiatives that entice companies like Amazon and Frito-Lay and many others to locate their businesses in East Fishkill. This not only helps East Fishkill but the whole Hudson Valley."
