EAST FISHKILL WELL TESTING PROTOCOL

All 3rd party water test sample collectors must adhere to the following requirements:

1. You must be registered with the Town of East Fishkill.
 - Proof of license or certification must be submitted with the permit application.
 - A registration fee of \$25 will be collected by East Fishkill at the time of registration.
 - Permit is valid for 1 (one) year from the date of approval
 - You will be responsible for timely renewal.
2. Results of the Water Tests must be submitted to Town of East Fishkill Building Department.
 - The results **MUST** be mailed or submitted in person – not faxed - directly from the lab.
 - The name, address and phone number of the person who collected the sample must be included with the results.
 - The results must have the authorized signature of the lab.
 - The chain of custody form must accompany the results.
3. Only NYS ELAP Certified Laboratories may perform the water analysis.

Since laboratories have their own protocols for sample submissions, you should contact them ahead of time so that you have the correct collection vessels and set of procedures.

Failure to follow these instructions will result in invalidation of testing results at your expense.

The mandatory Part 5 Water Test required by the Town does NOT include testing for PFOS or PFOA, however the Town does recommend testing for these compounds. The following list of organic and inorganic parameters must be included in the test:

- | | | |
|---|--|-----------------------------|
| 1. Bacteriological Parameters:
Total Coliform
Escherichia coli | 1,2-dichloropropane
1,3-dichloropropane
2,2-dichloropropane
1,1-dichloropropene
cis-1, 3-dichloropropene
trans-1, 3-dichloropropene
ethylbenzene
hexachlorobutadiene
isopropylbenzene
p-isopropyltoluene
methylene chloride
n-propylbenzene
styrene
1,1,1,2-tetrachloroethane
1,1,2,2-tetrachloroethane
tetrachloroethene
toluene
1,2,3-trichlorobenzene
1,2,4-trichlorobenzene
1,1,1-trichloroethane
1,1,2-trichloroethane
trichloroethylene
trichlorofluoromethane
1,2,3-trichloropropane
1,2,4-trimethylbenzene
1,3,5-trimethylbenzene
m-xylene
o-xylene
p-xylene
vinyl chloride | methyl tertiary-butyl ether |
| 2. Principal Organic Compounds Parameters: ¹
Benzene
bromobenzene
bromochloromethane
bromomethane
n-butylbenzene
sec-butylbenzene
tert-butylbenzene
carbon tetrachloride
chlorobenzene
chloroethane
chloromethane
2-chlorotoluene
4-chlorotoluene
dibromomethane
1,2-dichlorobenzene
1,3-dichlorobenzene
1,4-dichlorobenzene
dichlorodifluoromethane
1,1-dichloroethane
1,2-dichloroethane
1,1-dichloroethene
cis-1,2-dichloroethene
trans-1,2-dichloroethene | 3. Inorganic Compounds Parameters:
Alkalinity
Antimony
Arsenic
Barium
Beryllium
Cadmium
Chlorides
Chromium
Cyanide
Hardness
Iron
Lead
Manganese
Mercury
Nickel
Nitrate
Nitrite
pH
Selenium
Sodium
Sulfate
Thallium
Turbidity | |
