### **§ 194-98. Walls and fences.**

L.L. No. 1-2025

- A. Retaining walls. The yard requirements of this chapter shall not be deemed to prohibit any necessary retaining wall. Retaining walls four feet in height or less do not require a permit. Retaining walls greater than four feet in height require engineered drawings approved by the Building Department/Engineer and a fence/wall permit from the Building Department. A retaining wall may be greater than six feet in height if the requirements of this Section are complied with. However, no fence may be added to a retaining to make the fence and retaining wall greater than six feet in height when combined. See table below.
- B. Fences and walls (not retaining). On any residential property, the finished side of the fence shall face the adjoining property, and all exposed stands and braces shall face the interior property. All fences or walls exceeding four feet must be decorative. Chain-link fences shall not exceed four feet in height in any yard of a residential district. Fences and walls four feet in height or less may be erected in any yard and do not require a permit. Fences and walls greater than four feet in height and less than six feet in height may be erected behind the front line of a house or within 10 feet of the front line of a house with a fence/wall permit from the Building Department. Fences and walls exceeding four feet in height and located more than 10 feet in front of the front line of a house and all fences and walls exceeding six feet in height require a variance from the Zoning Board of Appeals (ZBA) and a wall/fence permit from the Building Department except for properties in an industrial district which shall be permitted to have fences 12 feet in height. See table below:

<b>Walls and Fences</b>	<b>Permit(s) Required</b>
<b><u>Retaining walls</u></b>	
4 feet in height or less	No permit required
Greater than 4 feet	(1) Engineered drawings approved by the Building Department/Engineer
	(2) Requires fence/wall permit from the Building Department
<b><u>Fences and walls (not retaining walls)</u></b>	
4 feet in height or less	No permit required
Located within 10 feet of the front line of the house and exceeding 4 feet in height but not exceeding 6 feet in height	Requires fence/wall permit from the Building Department
Exceeding 4 feet in height and located more than 10 feet in front of the front line of the house	(1) Requires variance from ZBA;
	(2) Fence/wall permit from the Building Department
Exceeding 6 feet in height	(1) Requires variance from ZBA unless the fence is located in an Industrial District;
	(2) Fence/wall permit from the Building Department

### **§ 194-99. Visibility at intersections.**

On a corner lot in any residential district, no fence, wall, hedge or other structure or planting more than 3 1/2 feet in height shall be erected, placed or maintained within the triangular area formed by the intersecting street lines and a straight line joining said street lines at points which are 30 feet distant from the point of intersection, measured along said street lines.
